

the untouchable™

Multifunctional touchless faucet
Water, soap and disinfectant in one unit

DESIGN MEETS QUALITY

The high-end, minimalist design of *the untouchable*™ doesn't just look good, its robust AISI 316 stainless steel body protects against corrosion, bacteria and vandalism. The faucet is produced in a state-of-the-art facility in Germany, where product quality is of the utmost concern.

SUPERIOR HYGIENE

- ▶ **Touchless operation:**
The more devices needed to complete a hand-hygiene process, the greater the risk of cross contamination becomes. *the untouchable*'s touchless dispensing of multiple liquids eliminates this risk.
- ▶ **Automatic rinsing function:**
The integrated rinsing function automatically clears out stagnant water 24 hours after the last activation to prevent growth of legionella bacteria.

SPACE SAVER

By combining soap, sanitizer, lotions and water, the untouchable is able to win back space for much-needed medical or lab equipment, while providing the opportunity to create a more design-conscious space.

FOR MEDICAL SETTINGS

Water, Soap and Disinfectant

		Art. No.
MWSD bent	countertop integration	5400007
MWSD straight	wall mount	5400008

Soap and Disinfectant

		Art. No.
SD bent	countertop integration	5400143
SD straight	wall mount	5400142

FOR PUBLIC USE

Water and Soap

		Art. No.
MWS bent	countertop integration	5400005
MWS straight	wall mount	5400006

theuntouchable™

SIMPLE TOUCHLESS OPERATION

the untouchable™ makes use of an elegant infrared interface, operated through a simple process: select above, receive under. By swiping above *the untouchable™* - in any direction - the dispenser cycles through the available liquids. When a desired liquid is selected, the hand is simply placed under the faucet.

PRODUCT DOSAGE

- ▶ 1,000 ml standard Euro bottles
- ▶ Suitable for low-viscosity soaps, sanitizers, and lotions
- ▶ Refillable using bottles with wide neck
- ▶ Customizable dosage
 - Soap: 1 - 2.5 ml
 - Disinfectant: 0.8 - 2.0 ml
 - Water flow time: 1 - 180 seconds
