

PREDATOR *line*

Originale VOLPI has also thought about those who do not have professional needs and want an electronic shear to prune their garden or small orchard and vineyard facing a modest expense.

The advanced technology of **PV295**, the lightness and practicality of the **PV280** and the power of the **PV400** represent the result of careful research. As always, for **Originale VOLPI**, reliability standards are high, in compliance with the indications for the use of the products.

They look the same as the others but there is written **Originale VOLPI**... a brand, a guarantee!
